UCNJ – Transforming Our Community One Student at a Time.
Our Mission is to empower students to achieve their goals by providing access to high quality and affordable higher education. As a comprehensive community college, we provide career programs, transfer programs, developmental education, and lifelong-learning opportunities, with a focus on excellence. This mission is sustained through the College’s unwavering commitment to the transformational strength of a diverse campus community and an equitable and inclusive learning and work environment for all.

Briefly describe how this program supports UCNJ’s Mission.

Program Learning Outcomes

Program Learning Outcomes (PLOs) must have Institutional (General Education) Learning Outcomes embedded, including scientific/critical thinking and quantitative reasoning; oral/written communication; and information literacy/technological competencies. Generally, there should be about 5-8 PLOs and they should answer the question, "What will the students be able to do upon completion of the program?"

Please list your Program Learning Outcomes as they appear in the catalog.

Assessment Methods

What methods (e.g., assessment of key courses, capstone projects, portfolios, comprehensive standardized exams, etc.) is your program using to assess the achievement of PLOs? Please note, if your program is assessing key courses, there must be an attached copy of the completed "Mapping PLOs to CLOs" grid, which is used to align PLOs to CLOs from the courses selected for assessment.

Briefly describe the methods your program will use to assess its success.

Program Assessment: Closing the Loop

After completing an assessment cycle (at the end of a semester, or at the end of the year), please attach a copy of the completed "Program Assessment: Closing the Loop" form, which is used to clearly identify the methods of assessment used to measure student achievement, the data collected via assessment methods, the changes made based on the data, and the impact the changes had on Program Learning Outcomes.
